

- ◆ Baccalaureate degree in Engineering, Computer Science, Mathematics, Statistics, Physics, Quantitative Management or a similar field
- ◆ Knowledge of calculus, differential equations, matrix methods, computer programming, probability and statistics

Exceptions to the following requirements may be possible based on the applicant's complete portfolio, including letters of recommendation and work experience.

- ◆ Two years of full-time, professional work experience beyond graduation
- ◆ Unconditional admission requires:
 - submission of official GRE scores or completion of an approved master's degree program
 - A combined verbal and quantitative GRE score of 1,000 or more is mandatory.
 - The analytical writing section of the GRE is required and will be a component of the admissions decision.
 - a GPA of 3.0 or higher in the final two years of undergraduate study
