

**MULTIPLE FACULTY OPENINGS IN HUMAN SYSTEMS ENGINEERING**  
**Department of Industrial and Systems Engineering**  
**Herbert Wertheim College of Engineering**  
**University of Florida**

The Department of Industrial and Systems Engineering (ISE) in the Herbert Wertheim College of Engineering (HWCOE) at the University of Florida (UF) invites applications for multiple full-time, open-rank, tenure-track faculty positions in Human Systems Engineering beginning August 2018. Candidates who align with healthcare or transportation are particularly appealing. We are specifically interested in candidates with research that has broad societal implications (e.g., improving healthcare delivery and improving transportation network design and operation). Collaborative and interdisciplinary opportunities exist both within ISE and HWCOE and across UF, including [University of Florida Transportation Institute](#), [Human-Centered Computing @ UF](#), [University of Florida Informatics Institute](#), [Clinical and Translational Science Institute](#), and [UF Health](#).

The Department of ISE welcomes applications from individuals with strong backgrounds who hold a doctorate in ISE or in any related discipline. It is desirable that the applicant has one degree in engineering. Successful candidates are expected to contribute to research and educational programs, including developing and sustaining externally-funded, interdisciplinary research programs, maintaining a strong publication record, supervising graduate students, and teaching undergraduate and graduate courses in industrial and systems engineering.

Application packets consisting of a letter of interest, a curriculum vitae, a statement of research interests, a statement of teaching philosophy and teaching interests for existing and new courses at both the graduate and undergraduate levels, a brief statement describing the applicant's interest in and experience working with diverse groups and underrepresented populations, copies of two or three significant publications, and contact information for three or more references may be submitted at <https://jobs.ufl.edu/>. In addition, another copy of the application packet should be emailed to [hfe\\_search@ise.ufl.edu](mailto:hfe_search@ise.ufl.edu). Review of applications will begin December 15, 2017, and continue until the positions are filled. For more information about the Department of ISE, HWCOE, and UF, see <http://www.ise.ufl.edu/>, <https://www.eng.ufl.edu/> and <http://www.ufl.edu/>, respectively. Questions regarding the positions can be directed to Dr. Elif Akcali at [akcali@ise.ufl.edu](mailto:akcali@ise.ufl.edu).

University of Florida counts among its greatest strengths –and a major component of its excellence– that it values broad diversity in its faculty, students, and staff and that it creates a robust, inclusive, and welcoming climate for learning, research, and professional service. The University of Florida is committed to equal educational and employment opportunity and access, and it seeks individuals of all races, ethnicities, genders and other attributes who, among their many exceptional qualifications, have a record of including a broad diversity of individuals in work and learning activities. The University of Florida is an Equal Opportunity Employer.
